

The Autism Project

Supported Employability Programmes

for autistic adults, aged 18-25, with an EHCP

The Autism Project now has **1-year**, **2-year** and **3-year** pathway options

Learners will be assessed before joining the project as part of our admissions process. A pathway will be chosen based on their needs, aspirations and EHCP outcomes. All of our pathways support and prepare learners to identify their **aspirations** and develop **transferrable skills** for their futures. After each year, learners will be reassessed to ensure the next year on the pathway is right for them.

Employment & Education	Independence	Community Inclusion	Health
