The Charity

The Children's Trust is the UK's leading charity for children with brain injury and neurodisability.

The charity provides rehabilitation, medical care, special education, community services and expert information.

Our key services are:

- Rehabilitation for children with Acquired Brain Injury (ABI)
- A non-maintained special school, with associated residential houses for children with complex education, health, therapy and care needs
- Online information and support via our Bumps Happen hub and publications.

Our residential services based at our national specialist centre in Tadworth, Surrey, work in partnership with the NHS and local authorities to provide a step-down pathway of care between hospital and home. The centre is entirely child and family focused to ensure that their needs are appropriately supported.

In the community, we provide clinical support to complement local services and give children and young people with ABI the best chance of succeeding at home and in school.

We are the only paediatric centre with a national specialised commissioning contract (through NHS England) to provide brain injury rehabilitation for children with severe brain injury. Our other services are funded through local health commissioners (such as clinical commissioning groups), social care and education authorities,

together with the millions raised through voluntary fundraising.

Thanks to the generosity of The Children's Trust's supporters, our 24 acre Tadworth site features a modern hydrotherapy pool, accommodation for parents, specially adapted equipment, a nature trail and soft play areas.

We run a non-maintained special school for children with complex education, health, therapy and care needs with associated residential houses. The Children's Trust School supports children and young people from 2 - 19 years old and is dual-registered with the Care Quality Commission (the school residential houses) and Ofsted Education.

The Children's Trust is a charitable organisation with approximately 500 committed staff and over 1,000 volunteers with a range of expertise across nursing and care, education, therapy, retail, operations and centralised support functions such as finance, HR, fundraising and communications.

Our Promises

Our Promises capture our strengths and aspirations. They guide the way we act, interact and come together to achieve our goals. The journey we took to reach our Promises has been an important one. A highly collaborative and iterative process that has seen each word shaped by our people - our volunteers, employees, partners, trustees, and suppliers. Perhaps most importantly, at the core of this process are our children, young people, and their families. This journey has given us a critical opportunity to give children and young people a voice. As a result, our Promises have been genuinely enriched by them. That's because how we work and carry out our role is as important as what we do, and that's why as part of The Children's Trust, we all need to live by our five Promises.
