

OUR CHAIRMAN - RICHARD THOMAS

As Chair of Trustees of Farm Cornwall I have been involved with the project, in its various forms, since created in 2001.

In my day job I run a mixed farming operation with dairy, beef, cereals and a potato growing and packing operation and have leadership roles in other farming related organisations.

I have stayed involved with Farm Cornwall for almost 25 years because of the invaluable support that is offered to people in the rural community. I passionately believe in the project and the work it does.

It is a project quite unique within the farming support network and this continues to be recognised nationally.

This restructuring will produce an organisation fit and ready for the future and better able to deal with the never-ending challenges faced by those living in rural communities.
