We value diversity and aim to have diverse workforce that reflects the community and our service users, in line with our vision, values and inclusion commitments. We encourage applications from all sections of the community.

Safe Evolve, Early Intervention service is a new service commissioned by the London Borough of Ealing and represent an exciting partnership with the Anna Freud. The service offers brief evidence-based individual and group interventions to address mild to moderate wellbeing needs largely using cognitive behavioural therapy (CBT), trauma-informed and mentalization approaches. It consists of two teams: one a specialist schools outreach service and the second a community wellbeing team for children and families.

The Deputy Head of Service post will support the expansion and delivery of SAFE Evolve including direct interventions, consultation and training to professionals, as well as making sure that the clinicians operate at all times from an inclusive values base, which recognises and respects the diversity of Ealing and ensures all work is sensitive to the needs of a range of ethnic, cultural and religious groups, is gender sensitive, anti-discriminatory and values diversity.

This is an exciting opportunity to join one of our thriving Clinical Help offers in the Schools Division. Successful candidates will demonstrate extensive experience of clinical supervision, implementing interventions with children and young people in schools and confident communication skills to effectively liaise with external agencies and represent the Ealing Early Intervention Service at a high standard.

Please email recruitment@annafreud.org with any job enquiries, or if you require assistance or experience difficulties when applying. Please note that successful candidate(s) will be asked to evidence their Right to Work in the UK post-job offer - we do not hold a sponsor licence therefore we are unable to provide Visa sponsorship.
