

Candidate pack for **Senior Policy Adviser** **(Access to Treatments)**

Working towards a world free from MND

About MND and the work of the Association

Motor neurone disease (MND) is a fatal, rapidly progressing neurological condition affecting more than 5,000 adults in the UK at any one time. The disease causes messages from nerves (motor neurones) in the brain and spinal cord that control movement to gradually stop reaching the muscles, leading them to weaken, stiffen and waste.

The result is that people become locked in a failing body, unable to move, talk and eventually breathe. Some may experience changes in thinking and behaviour, with a proportion experiencing a rare form of dementia. MND does not usually affect senses such as sight, hearing and touch.

MND kills a third of people within a year and more than half within two years of diagnosis. It affects people from all backgrounds and a person's lifetime risk of developing MND around 1 in 300. Today six people will be diagnosed and six will die from MND. There is no cure.

The MND Association focuses on funding research, improving access to care and campaigning for people living with or affected by MND in England, Wales and Northern Ireland. We have over 11,000 members forming a powerful network that provides information and support for people with MND, their families and carers. We fund and promote research that leads to new understanding and treatments, and brings us closer to a cure. We campaign and raise awareness so the needs of people with MND are recognised and addressed by wider society.

People with MND, their families and carers are at the heart of everything we do

Our vision and values

Our vision

A world free from MND.

Our values

- People with MND, their families and carers are at the **heart** of everything we do.
- We **collaborate**, and value everyone's contribution.
- We achieve excellence through personal **commitment** and ongoing improvement.
- We **respect** and respond to people's diverse needs, backgrounds and views.
- We achieve our aims through building **open** and transparent relationships.

Our Promises

To harness the hope within our community to speed up progress towards a world free from MND, the MND Association has committed to five Promises. Our Promises give us focus to work faster and fight harder to strive for better – together with our community. Simply put, they drive everything we do.

Promise 1 We will not rest until: MND is treatable and ultimately curable

We are seeking new collaborative drug discovery and development projects, helping to fund and facilitate the research that is taking us ever closer to uncovering the causes of MND, effective treatments and ultimately a cure.

Promise 2 We will not rest until: Everyone gets the care they need when they need it

Co-ordinated multi-disciplinary care is the very best way to ensure a person with MND has access to all the healthcare professionals they need, at the right time. Our 22 care networks across the country provide this. But not everyone with MND has access to the same level of support. That must change.

Promise 3 We will not rest until: Every day with MND counts

For people with MND, technology can help life be the best it can be. We are working with tech giants from around the world to find solutions to real-life problems.

Promise 4 We will not rest until: You are heard

If we shout louder and to the right people, things will change. If we all join together we can't be ignored.

Promise 5 We will not rest until: No one faces MND alone

We will work to break down barriers that prevent people with and affected by MND from accessing the help and support they need.

Job Description

Job Title:	Senior Policy Adviser (Access to Treatments)
Reports to:	Policy Manager
Direct Reports:	None

Job purpose

- To secure access to new and innovative therapies for people affected by motor neurone disease (MND).
- Ensuring that the Association is equipped with the right information and analysis to influence health and care policymakers.
- Monitors the policy landscape and regulatory horizon for new treatments and models of healthcare and develops policy positions aiming to maximise access for patients.

Main responsibilities

- Taken from job description Lead on policy issues related to access to treatment and healthcare – including availability of medicines, tests, technologies and care models.
- Monitor, update and advise on policy and regulatory issues relating to patients' access to treatment and healthcare, across England, Wales and Northern Ireland.
- Analyse and respond to horizon scanning information on new treatments and models of healthcare – including through membership of a cross-functional group focused on maximising the benefits of research for patients.
- Work in close partnership with the Senior Policy Advisor – Research and Healthcare, especially in seeking to maximise availability of clinical trials, as a key mechanism for maximising access to new treatments.
- Work closely with clinicians, researchers, people with motor neurone disease and internal colleagues to analyse policy issues, identify solutions, and develop policy positions.
- Prepare briefing documents for MND Association colleagues on access to new treatments and the relevant regulatory processes, including briefings for senior colleagues ahead of meetings with decision makers.
- Work with the MND Association colleagues to ensure the motor neurone disease community is kept informed of policy developments and that positions are promoted to a range of external audiences.
- Collaborate closely with colleagues in public affairs and campaigning to help influence politicians and decision makers on issues related to access to treatments, genetic tests, trials and technology.

Main responsibilities (cont)

- Carry out research, data collection and analysis on policy issues involving access to treatment and healthcare and produce policy reports and recommendations.
- Engage and seek to influence contacts with key decision makers at organisations such as NICE, MHRA, Department of Health and Social Care, and NHS England.
- Communicate the MND Association's position on policy issues to Government, the NHS and other stakeholders through policy papers, briefings, submissions, speeches and reports.
- Liaise and collaborate with the external policy community, including pharmaceutical companies, NHS professional bodies, academics and charities.
- Develop responses to NHS consultations and other public policy initiatives, keep track of processes and monitor outcomes.
- Support regional staff to campaign locally on national issues.
- Organise policy-related consultation meetings, seminars, and conferences.
- Undertake any other task relevant to the job purpose and ensure that all functions performed reflect the Associations mission and core values.

Essential criteria

- Experience of outcome-focused policy research, analysis and development.
- Good communication, reporting, negotiating and influencing skills.
- Excellent planning and management skills, with ability to prioritise work and meet tight deadlines.
- Ability to work as part of a team whilst also working independently
- Ability to quickly develop an excellent understanding of a new policy area.
- A commitment to the vision and mission of the MND Association.
- Demonstrable commitment to achieving social change and inclusion.

Salary

£34,300 per annum on a full-time permanent basis plus benefits and £3253 London Weighting allowance

Location: London Office

Hybrid Working Expectations: Up to 2 days per week office attendance (Flexibility to attend the office more regularly on occasion may be required to meet business needs.)

Pension

The option of the Auto Enrolment Scheme where the employee and employer both contribute 4% of your monthly salary, calculated after tax and national insurance (NI) have been deducted or an Enhanced Salary Sacrifice Scheme where the employee contributes a minimum of 5% and the Association contribute 8.1%, calculated before tax and NI are deducted.

Annual leave

28 days of annual leave, which increases by one day for each full calendar year worked, up to a maximum of 33, in addition to the recognised bank holidays.

Additional Benefits

- UK Healthcare: We provide level 1 cover, which reimburses healthcare costs including dentist, optician, health screening, specialist consultation and much more. Discover more [here](#).
- You and your household have 24/7 access to GP appointments, prescriptions and advice, all at no extra cost. Discover more about GP24 [here](#).
- Access to a confidential counselling helpline. Support for your health and wellbeing, including challenges related to family, work, finances and health.
- My Healthy Advantage: Access to the wellbeing app providing interactive tools to support your health and wellbeing.
- Salary sacrifice schemes include:
 - Save money and spread the cost of a new bike whilst reducing your carbon footprint.
 - Buy and sell up to 5 days annual leave.
- Life assurance: additional financial protection for your loved ones, ensuring piece of mind and a secure future.
- BenefitHub: Save money on your everyday shopping with access to 100s of high street discounted vouchers and offers, including cash back plans.
- Opportunities for training and personal development.

How to apply

Please submit a CV and supporting statement via our [website](#). This ensures your application is processed correctly and we have all the required information.

Your supporting statement should be no longer than one side of A4 and demonstrate how you meet the following areas of the role:

- Strong analytical and research skills, with an ability to understand complex policy issues and identify solutions.
- Experience in analysing and addressing policy issues involving research, access to treatment, care or social support.
- Knowledge of the policy environment governing access to treatments and models of healthcare, including the roles of NICE, MHRA and NHS England.

Where experience is asked for, please give one example showing what you did and what it achieved. Where we require evidence of ability, please explain either how you would approach that particular competence or give an example to support your suitability.

Please note, adverts may be closed before the deadline if sufficient applications are received. To avoid disappointment please apply early.

All applications will receive a response once shortlisting has been completed.

Inclusive recruitment

We are committed to providing people with disabilities an opportunity to compete fairly for jobs.

- We guarantee interviews for disabled applicants that meet the requirements of the role as part of our commitment to the Disability Confident Scheme.
- We can provide reasonable adjustments throughout the recruitment process.
- We communicate with applicants in a way that works best for them to ensure a positive and supportive candidate experience.

Alternative application process

To support an inclusive application process, we are open to receiving alternative applications from candidates who may find it difficult to complete our online form. If you would like to apply via video or audio file, please send your recorded application - ensuring you cover the supporting statement aspect -

to HRRecruitment@mndassociation.org

Privacy Policy:

The information provided to the MND Association when applying for a vacancy will be treated in full accordance with the General Data Protection Regulation (GDPR).

The MND Association is committed to protecting your personal information and being transparent about what information we hold, whether you are a donor, volunteer, shopper, campaigner or a person living with or affected by MND.

For more information, visit [Privacy Policy | MND Association](#)

Right to work:

If you are successful in securing a role at the MND, you will be asked to produce your valid right to work documentation as part of our pre-employment checks. To find out more please visit our [website](#).

DBS checks:

Depending on the nature of your role you may be required to complete a criminal records check with the Disclosure and Barring Service (DBS).

Animal testing statement:

Research using animals has led to a greater understanding of MND. Because of the complexity of MND, at the moment animal models are still one of the most powerful tools used to help us understand, prevent and one day cure MND. Many of the achievements that stem from research funded by the MND Association, and by other organisations worldwide, would not have been possible without animal research. Even so, a great deal of our research is carried out without involving animals.

Any decision to use animals in research is never taken lightly. We understand that not everyone agrees with animal research. For more information, visit [Animal research | MND Association](#)

Looking out for our people

The wellbeing of our staff is very important to us, and that's why we've developed a wellbeing offer and programme of activities. These include:

- Mindfulness sessions
- Wellbeing sessions
- Menopause support group
- Parent and carer support group for children who are neurodivergent
- Less visible disabilities and conditions forum
- Mental Health First Aiders who provide support and signpost you to further information.

Learning and development opportunities

We understand the importance and benefits of continual learning. To facilitate your professional and personal growth, we provide a:

- comprehensive induction programme
- range of courses available on our Learning Management System - *Learning Lab*
- job shadowing policy, enabling you to strengthen your knowledge in other areas
- chance to study for an apprenticeship alongside your role.

Our commitment to inclusion

Motor neurone disease doesn't discriminate, and neither do we.

We are determined to become fully inclusive by continuing to embrace diversity, remaining committed to equity and ensuring that our products and services are fully accessible. In this way, we can ensure that **all** people living with and affected by MND get the best possible care and support they deserve.

We offer a variety of network groups and forums that are open to everyone, including our staff, volunteers, people living with and affected by MND, as well as Association members. These groups provide peer-to-peer support, raise awareness, and hold the Association accountable.

We are a Stonewall Diversity Champion, have recently been awarded Disability Confident-Employer status, and are members of the Communications Access Scheme.

Take a look at the [inclusion pages](#) on our website to learn more about our inclusion strategy, see how far we've come and where we are headed.

Where we work

Our central office is situated at Francis Crick House in Northampton, Moulton Park. It's a bright and modern space with a variety of flexible working spaces, meeting rooms, and communal areas.

We also have an office space in London, which is used predominately by our External Affairs Team. Some of our staff are based regionally and work from home.

Francis Crick House

Our history

On 6 October 1979, three independent regional groups set up by people affected by MND came together for the first time as the MND Association. Professor Stephen Hawking accepted an invitation to be the Patients' Patron and remained a figurehead of the Association until his death in 2018.

Within a year, we had funded our first full time research fellow, based at Charing Cross Hospital's neurological department, and just two years later, in 1982, 40 specialists attended the Association's inaugural research conference.

Today, the Association funds the coordination of life-changing care for people living with MND and wide-ranging support for families and carers. We invest millions of pounds every year in the global research effort to discover the causes, potential new treatments and ultimately a cure for MND.

Visit our [website](#) to learn more about motor neurone disease and the important work we're doing at the Association.
