INTRODUCTION

Our Journey

MOVE Charity believes every individual impacted by cancer should receive the necessary resources and information to engage in and maintain an active lifestyle.

In 2012, at the age of 24, international athlete Gemma Hillier-Moses was diagnosed with Burkitt lymphoma. She wanted support to stay active during and after her treatment but it just didn't exist. Four years later Gemma founded **MOVE** to fill that gap. The charity's early mission was to support children and young people through cancer rehabilitation. In 2018 oncologist Dr Lucy Gossage came on board. With a background as a professional triathlete Lucy believes passionately in the power of movement for those living with and beyond cancer. Together Lucy and Gemma created 5k Your Way, an empowering and inspiring cancer support group, that encourages anyone impacted by cancer to live an active and fulfilling lifestyle.
