

Could **YOU** help a grieving child look to a brighter future?

Holding On Letting Go

Registered Charity No: 1191016

Grief is one of the hardest things to go through, at any age, but for children & young people especially it can be a very confusing experience. **Holding On Letting Go** strives to help children manage their grief in a healthy, constructive, and open way. We aim to impart healthy coping strategies, work through complex feelings, and provide a safe space for a child to share openly - without shame, or fear of being judged.

The core service we offer is our therapeutic bereavement support weekends. These events allow bereaved children and young people the opportunity to be creative in their expression of grief, gives them a chance to be open with their emotions, and offers the opportunity to meet other bereaved young people. Ultimately we aim to help these children and young people **Hold On** to the precious memories of their special person, while **Letting Go** of the painful ones.

Throughout our service one thing remains the same—the value and appreciation of our **Wonderful Volunteers**; they are the foundation of **Holding On Letting Go** and enable us to continue to provide care and support for bereaved children and their families.

If you have a passion for helping those in need, an interest in improving the lives of children and young people, or just want to make a positive impact then we would love for you to join us as a volunteer!

"A day in the life" of a Children's Bereavement Support Volunteer...

*Our Volunteer, Caroline, shares what it's like to volunteer at one of **Holding On Letting Go's** therapeutic Bereavement Support weekends...*

8:30am – When I arrive I meet the team, help set up the venue, and enjoy a cup of tea while we are briefed on the schedule for the day. I have read the pen picture of the child I will be working with so feel prepared to welcome them to the weekend, calm any nerves, and look forward to building a strong bond with them.

9:15am – Once the children arrive we ease them in gently and set the scene for the coming weekend. Coming to an event can be a daunting experience for the young people and we want to make sure they know this is a safe space to open up and be themselves. During the morning we may have a sharing circle where the child can share memories of their loved ones, if they wish. After a break it's time for some team building exercises and fun activities!

12:30pm – At lunch our Catering Volunteers provide a tasty buffet style meal for the volunteers and children. There is a chance for some free time while the children relax and play, time to get to know the other volunteers, and time to prepare for a fun filled afternoon!

1:15pm – Afternoons are filled with more fun activities, more chances to share, and opportunities to develop coping strategies that the children can use in their day-to-day life when they are struggling with any negative emotions. At this point a level of trust has been established with the child I am supporting and I can see them opening up more, feeling more comfortable, and starting to progress on their grief journey.

3:30pm – At the end of the first day we gather to reflect and build excitement for the next day, while addressing any anxieties the children have about returning. On the second day we hold a closing ceremony where candles are lit, teddies and certificates are given out, and we have a special moment with the group to say goodbye and thank you.

4:00pm – At the end of each day we tidy up the venue, feedback to the team about how the day went and go home feeling like we have had a positive impact on the children we have supported over the weekend!

Being a Children's Support Volunteer can be hard and emotional work, however knowing that I can have a positive, long lasting impact on the children I help keeps me coming back as a volunteer!
