We especially want to hear from you if you feel that you have lived experience of power structures preventing you from accessing opportunities like this.

ABOUT US

ABOUT THE ROLE

Working closely with the Executive Director of Feedback Global, as well as with other members of the senior team and the Executive Director of Feedback EU, the Fundraising Manager will develop and implement a strategy to raise funds for Feedback Global and Feedback EU, with a target of £3m yearly income across both organisations by the end of 2025.

The overwhelming majority of the funds raised will be from trusts and foundations, and so the role will primarily consist of researching potential trusts and working with the different teams to research and write compelling concept notes and applications. As such, the postholder will be expected to proactively keep informed about developments in the food, social justice, and environmental sectors. The postholder will also lead on reporting to these funders and maintain and develop these relationships. The postholder will identify new trusts and foundations and build and maintain a robust pipeline of income generation opportunities.

The postholder will also be expected to contribute to other fundraising projects which might include digital fundraising development, direct marketing, and major donor fundraising, in partnership with the communications team and senior leadership team.

This will be a varied role within a fast-paced environment, therefore flexibility and a positive, can-do attitude and a readiness to get stuck into all aspects of the organisation are essential competencies of the successful candidate.
