Grants Manager

Job Pack
July 2026

WELCOME

Thank you for your interest in joining SSE. We exist because the challenges facing our communities — poverty, poor health, climate change, inequality — are too big and too urgent for any one sector to solve alone. What we've learned, over more than two decades, is that when you invest in the right people and give them the right support, extraordinary things happen.

SSE isn't a traditional school. We don't lecture. We create the conditions for people to learn from each other, to take risks, and to grow — in a way that's genuinely accessible to people who haven't always been well-served by traditional institutions. We've worked with thousands of leaders of social change and distributed millions of pounds in grants. The organisations we support reach thousands of people.

If you're someone who cares about this work, who brings both skill and purpose to what you do, and who wants to be part of an organisation with serious ambition for what comes next — we'd love to hear from you.

Alastair (Ali) Wilson OBE
Chief Executive, School for Social Entrepreneurs

ABOUT THE SCHOOL FOR SOCIAL ENTREPRENEURS

We can't fix issues like poverty, inequality, health and climate change alone. We are fully conscious of the scale of the challenge that faces the country and the urgent need to respond. That's why the School for Social Entrepreneurs exists, to empower and equip people with entrepreneurial ideas and solutions to grow the social economy.

The social economy is a movement of organisations and enterprises that prioritise people and planet. Together, we are committed to tackling the greatest social and environmental challenges of our time.

Purpose-led and ambitious, we combine creativity with commercial thinking to deliver real impact. Resourceful and solutions-focused, we turn ideas into sustainable growth and meaningful results.

Impactful

Everything we do is ultimately about creating impact and achieving our vision and mission. We are impact-focused in all we do.

Collaborative

We go further together. By partnering openly and supporting our social entrepreneurs and fellows, we amplify their work, ask for help, share solutions, and enjoy the journey.

THEORY OF CHANGE

SSE'S VISION

A fair and sustainable world where the potential of all people is realised.

OUR STRATEGY

We are in the second phase of our 10-year strategy, **Bold Repositioning**, and are focused on increasing our impact, deepening our support for social entrepreneurs, and shifting the conditions that enable the social economy to thrive.

Our mission remains clear: to empower and equip people with entrepreneurial ideas and solutions to tackle society's greatest challenges.

Over the next three years, we will work towards three core outcomes:

EMPOWERED AND EQUIPPED SOCIAL ENTREPRENEURS

We will provide accessible, place-based and theme-driven learning programmes, we'll support individuals with lived experience and entrepreneurial talent to develop the skills, confidence and networks needed to drive social and climate change.

RESILIENT AND IMPACTFUL SOCIAL VENTURES

We'll expand our unique Match Trading offer and refine our funding support to help ventures grow their income, business resilience and long-term sustainability.

POLICY AND PRACTICE TO SUPPORT SOCIAL ENTERPRISE

By harnessing robust data and working in partnership across sectors, we'll influence national and local policy and position social entrepreneurship as a driver of regeneration, climate justice, and inclusive growth.

By 2028, we will continue to amplify the voices of underrepresented entrepreneurs and **establish SSE as the go-to convenor, connector and champion of the UK's social economy.**

OUR LEARNING PROGRAMMES

We offer lots of ways than for people to access learning that supports real-world change. From deep, structured programmes to bite-sized workshops and webinars, our course offer reflects the diversity of needs across the social enterprise and VCSE sectors.

Our learning programmes are designed to enable our strategic goal of igniting the social economy.

This is done through three key pillars:

To ignite entrepreneurship in communities to achieve social and economic renewal

To accelerate social innovation to tackle systemic challenges in society and to harness our network and insights

To influence policy and practice

ABOUT THE GRANTS TEAM

We're not a traditional funder. We don't hand out large, project-based funding. Our grants tend to be small, but they punch above their weight, helping social and environmental entrepreneurs take the next step to grow their organisations. Our grants run alongside learning programmes, supporting social and environmental entrepreneurs on their learning journey. We're innovative in how we do this, through both traditional and enterprise grants. We lead on Match Trading™, a grant that challenges social and environmental entrepreneurs to grow their trading income, and we're now launching repayable grants to help organisations take their first steps in repayable finance.

We deliver for a wide range of funding partners, government bodies, corporates, trusts and foundations. We create bespoke programmes and deliver with a range of inclusion partners. We are efficient and agile, but prioritise a human and accessible approach that meets the needs of diverse communities. Our grant managers get alongside grantees, often start-ups and early-stage organisations, to help them manage their grants and grow their businesses.

Although we're a small team of staff and freelancers, we expect to make over 600 grants to entrepreneurs next year. If you care about getting this right, and want to reach people who may struggle with mainstream funding, why not join us?
