Welcome Letter

Dear candidate,

Welcome and thank you for your interest in the role of CEO at Gwent Wildlife Trust.

Gwent Wildlife Trust is a registered charity supporting a growing network of thousands of people in diverse communities to collaborate for nature's recovery at a local level. The air we breathe, water we drink and food we eat all rely on biodiversity – the variety of life on Earth. Right now in Wales, there's a biodiversity crisis and Gwent Wildlife Trust is at the forefront, working to put nature into recovery.

We directly manage or advise on thousands of hectares of land and work with diverse communities to create joined-up, nature-rich spaces of all sizes across Gwent's counties: Blaenau Gwent, Monmouthshire, Torfaen and Caerphilly.

Established in 1963, we share decades of ecological experience, learning and evidence to protect wild places and wildlife with and for the people of Gwent. We are part of a movement of 5 Wildlife Trusts in Wales and 46 Wildlife Trusts across the UK, Isle of Man and Alderney.

Our vision is of people close to nature in a landscape rich in wildlife. So, by 2030, we need at least 30% of our land and sea in recovery and a tipping point of at least 1 in 4 people taking action for wildlife in their work and daily lives.

As a result, we are looking for someone to provide inspirational and effective leadership, including the setting and delivery of strategic goals, providing clear direction and managing change for the Trust, in accordance with the Trust's charitable objects, and in line with its Vision and Mission Statement.

Within the rest of this pack, you will find further information about the job description alongside our vision, mission and values. We hope this stimulates your interest and if you recognise yourself in our vision, beliefs and person specification, we very much look forward to hearing from you.

Thank you,

Marc Leppard

Chair, Gwent Wildlife Trust

Our Vision

Our vision is of people close to nature in a landscape rich in wildlife.

Our Mission

Our mission is to stem the decline in biodiversity whilst addressing the climate crisis that threatens Gwent's people and wildlife.

We will stand up for wildlife and promise to sustain our enthusiasm and effort for the long-term benefit of nature. We are driving a people-powered nature recovery that is informed by science and encourages diversity and participation for all. We are sustained by our vision of people close to nature in a landscape rich in wildlife.

Report after report has shown the devastating loss of wildlife in recent years. Across the UK, the average abundance of wildlife has declined by 13% since 1970. Over 600 species are threatened with extinction in Wales. Nightingales no longer nest in Gwent and the sound of the cuckoo is becoming scarcer and scarcer.

There is so much that needs to be done, and we are determined to play our part, guided by our core values of integrity, commitment and inclusivity.
