

For women and children. Against domestic violence.

Health Advocate Educator Applicant Information Pack

Introduction from the CEO

Thank you for your interest in working for Refuge.

We have a diverse team of incredible people who work together to provide an inclusive approach to ensure that every woman who needs support when facing domestic abuse, receives it.

We do this through a combination of frontline services offering immediate safety and support to women and their children. We also lead vital work to influence and change policies and practices that impact women and girls and use public engagement and campaigning to help change societal attitudes and norms.

We know that domestic abuse will never end until it is recognised by society as the crime that it is, and there is an understanding that it is underpinned by misogyny. We will not stop until we are able to challenge and shift harmful societal attitudes as well as drive policy and practice change that is needed to end Violence Against Women and Girls (VAWG). It is only then that women and children will be free to live their lives in safety, with control over their choices and without fear.

Whatever your role at Refuge, you will have the opportunity to grow and develop as part of an amazing diverse and inclusive team of inspirational and talented people who provide vital and specialist services to women and children when their lives are in crisis. This is not always easy work, but it is essential, it is lifesaving, and it is life changing. So, whether you work directly with clients, behind the scenes, or represent Refuge to the outside world, you will be an integral part of what we do.

We look forward to receiving your application.
