Upcoming Events: Autumn Term

Our programmes promote social mobility through careers education, helping young people in London state schools to develop essential employability skills through direct interaction with real world professionals. We are recruiting volunteers from a range of sectors and roles to come into schools and deliver a variety of programmes all focused on introducing students to careers-based topics.

No experience necessary and training will be provided, the only requirement is enthusiasm for working with young people. We also looking for secondary student mentors and organisations to host work experience, get in touch for more info! Contact us on volunteer@inspire-ebp.org.uk.
