

Retail Digital Content Officer

Job description and person specification

Imagine being told that you, or someone you love, is losing their sight. In that moment, two profound questions demand urgent answers:

- Can this be stopped?
- How will I live my life?

Currently, research into preventing and treating sight loss is chronically underfunded, receiving a mere 1.2% of publicly funded health research grants: people who are blind or vision impaired are three times more likely to experience loneliness and isolation than the general population.

We find and fund the brilliant minds and bright ideas that put change in sight. Our researchers are at the forefront, making breakthroughs and discoveries that will prevent, treat and cure eye disease. The partnerships we build and initiatives we support are changing life for blind and vision impaired people.

We are Fight for Sight: we won't stop until we: Save Sight. Change Lives.

We have a clear ambition, led by our CEO, Keith Valentine, who has valuable lived experience of sight loss. We've secured well-respected and highly engaged ambassadors, such as Sir John Major and Frances Segelman.

We are now looking for experienced, committed, and creative individuals to join our dynamic team to help realise a new five-year growth strategy. **You'll be part of something impactful, we'd love to hear from you.**
