

**Job Title:** Suicide Prevention Therapist

**Salary:** £37,950 pro rata (including London weighting)

**Hours:** 3 days per week (22.5 hours per week), Working days Tuesday, Wednesday and Thursday or Friday

**Location:** London

**Reports to:** Senior Suicide Prevention Therapist

### **The opportunity**

We are seeking to recruit a Suicide Prevention Therapist to support men in suicidal crisis at our centre in central London. We are looking for an experienced mental health professional or therapist with demonstrable interest in suicide prevention. We will work with you and train you to develop your therapeutic skills to offer our collaborative semi-structured psychologically informed intervention. You will support the centre user and their supporter(s) to recover from the suicidal crisis and maintain their safety. You will report to a Senior Suicide Prevention Therapist.

We opened the London centre in 2022 and this appointment is the last part of our expansion phase. New therapists will join an experienced supportive team and will gradually build a caseload to meet the growth of referral partnerships and increased awareness raising in London. As a part of this phase of the expansion, therapists may be involved in outreach, partnerships and other projects before dedicating their time to a full caseload supporting four men in suicidal crisis per day.

### **The Charity**

James' Place exists to stop men dying by suicide. We opened our first centre in 2018 in Liverpool, the first of its kind in the UK, in 2022 we launched our second centre in London, and this year we opened our third centre in Newcastle. To date, we have supported over 1500 men and delivered over 7000 sessions of our life-saving intervention. James' Place is a therapy centre for men who are experiencing a suicidal crisis and it was set up to make the experience of finding help as easy as possible. It offers men a brief, intensive, therapeutic intervention in a safe environment. Men who walk through the door at James' Place will be in a space where they feel valued and respected.

Building on the success of our centres in Liverpool, London and Newcastle, we are now expanding our model to reach more men in suicidal crisis. Our aim is to have five centres open across England by 2026.

## Skills, Knowledge & Experience

Assessment Method: **A** Application / **I** Interview / **T** Task
