About Kinship

We are Kinship. The leading kinship care charity in England and Wales. We're here for kinship carers – friends or family who step up to raise a child when their parents aren't able to.

We are made by and for our community of kinship carers. Like family, relationships run deep. And we hear their experiences; for too long they have been isolated without the help they need.

We support, advise and inform kinship carers. Connecting them so they feel empowered. Because a child needs the love and warmth of a thriving family.

We develop research, campaigns and policy solutions. Creating positive change across society. Because for kinship families, love alone is not enough.

Through our work we harness frustrations to fuel passion for change. And tough experiences to inspire ideas that transform lives.

And as we see momentum building, we keep using evidence to demonstrate the value of kinship care. Helping kinship carers navigate challenging circumstances. Believing in a child's potential.

Join us. Together, let's commit to change for kinship families.

Context

This is an opportunity to play a pivotal role in a pioneering programme that could reshape how kinship families are supported across England.

Kinship is undertaking a **pilot Randomised Controlled Trial (RCT)** of **Kinship Connected**, a Kinship Navigator programme designed to provide intensive, specialist support to kinship carers and help them navigate complex systems.

This is a multi-partner programme involving funders, independent evaluators, participating local authorities, internal delivery teams and kinship carers with lived experience.

Kinship Navigators are at the heart of delivery. You will work directly with kinship carers in the community and in their homes, providing intensive 1-to-1 support and facilitating local support groups, while working closely with local authority partners and other services.

Because the programme forms part of a **pilot RCT**, maintaining high-quality case records and accurate data collection is critical. Your work will contribute directly to the evidence base about what works for kinship families.

Each Navigator will support around **40 kinship carers over the delivery year**, holding a caseload of approximately **20 families at any one time**.

You will be part of a wider delivery team including the Programmes Manager, Mobilisation and Delivery Project Manager, research colleagues and other Kinship teams, working together to ensure the programme is delivered ethically, consistently and to a high standard.

Purpose of the role

The Kinship Navigator provides intensive, **time-limited support to kinship carers through the Kinship Connected programme**, a structured six-month intervention designed to help kinship families stabilise placements and access the support they need.

Working directly with kinship carers, you will build trusting relationships while completing structured assessments, goal setting and reviews to help families strengthen support networks and navigate services such as children's social care, education, health and community support.

This is a **community-facing role**, working directly with kinship carers in homes, community spaces and through co-location with local authority teams and partner organisations.

The role requires a combination of **high-quality relational practice and disciplined case recording**. As part of the pilot RCT, accurate documentation of activity, progress and outcomes is essential to ensure the programme can be evaluated and improved.

You will work closely with the Programmes Manager, delivery team, researchers and local authority partners to ensure the programme is delivered consistently, ethically and to a high standard, with a strong commitment to **equity, diversity and inclusion in supporting kinship families from all backgrounds**.

- Maintain accurate, timely records of all activity, assessments, support plans, contacts and outcomes on Kinship's CRM system (Salesforce) in line with organisational policy and programme protocols.
- Complete kinship carer needs assessments, SMART goal setting, reviews and outcome recording in accordance with the Kinship Navigator model and trial requirements.
- Follow all operational and data collection requirements of the pilot feasibility RCT, ensuring activity and outcomes are recorded consistently to support independent evaluation.
- Fully contribute to monitoring, reporting, quality assurance and learning processes, including collecting feedback and case studies that demonstrate impact.

- Act at all times in the best interests of Kinship and in line with our values.
- Participate in team meetings, supervision, appraisals and organisational events.
