Salary	Between £11,020 - £22,040 per annum £27,550 pro-rated (FTE)

Overview

Doctors of the World UK (DotW) is part of the global Médecins du Monde (Mdm) network, which delivers over 400 projects in more than 70 countries through 6,000 volunteers.

Our vision is of a world in which people affected by war, natural disasters, disease, hunger, poverty, or exclusion get the healthcare they need.

DotW's UK programme provides direct services and leads policy and advocacy work to help people across the UK who are excluded from health services, such as migrants, refugees, sex workers and people with no fixed address access, to access essential healthcare. Our services are run by volunteer doctors, nurses, midwives, and support workers who provide basic short-term healthcare and help to get people registered with their local GP.

We believe that every person living in the UK has the right to healthcare, and we work to influence public policy and local implementation to reduce health inequalities and ensure access to healthcare for all.

Through our health programmes and advocacy, we work with people to support them to overcome barriers to healthcare. Since opening in the UK in 1998, we've raised over £10,000,000 for overseas programmes, helped more than 20,000 people in the UK get access to healthcare and fought for health as a human right for all.

Job Purpose

This position is an integral role in a commissioned service by NHS North East London to provide asylum seekers with fair and equal access to primary medical services. The outreach service will provide initial health assessments and support to address any urgent care needs and any required referrals, as well as facilitating GP registration and paperwork to support access to healthcare.

The Outreach Senior Caseworker will play a key role in the delivery of services to people seeking asylum in contingency accommodation in Northeast London (specifically in 4 boroughs; Newham, Redbridge, Tower Hamlets and Hackney). As part of DotW's Services team, you will support our mobile clinic and outreach team to:

- Proactively promote DotW's service at individual accommodation sites, engage residents and book appointments
- Provide social assessments for residents and their dependents (adult and child) and escalating health issues of any immediate concern.
- Ensure residents with urgent health and/or safeguarding concerns are referred on appropriately.
- Ensure statutory safeguarding responsibilities are adhered to.
- Support residents to apply for health-related benefits where relevant

- Advocate on behalf of service users to support registration with local GP practices and supporting the smooth transfer of patient information
- Carry out follow up work generated from outreach sessions if required
- Supporting the collection and collation of feedback from service users as required.

The role will focus on DotW’s work to deliver services for people seeking asylum based in contingency accommodation and assist in developing best practice within DotW to provide healthcare in an outreach setting. The service may need to adapt to meet the dynamic nature of the population as it changes.

As part of the core delivery team for this project, you will support the direct delivery of services, and where required provide support and oversight to volunteers assisting with the delivery of health assessments, including ensuring adherence to DotW’s policies and procedures, assisting volunteers in resolving complex cases on behalf of service users in vulnerable situations and coordinating and prioritising casework. You will help provide a welcoming, engaging, and safe space for our broad and diverse volunteer team, leading by example in how to communicate with volunteer colleagues and service users.

You will draw on your experience of delivering effective advocacy on behalf of excluded groups and your highly effective coordination and multi-tasking skills. You will lead by example when working with volunteers and working directly on cases, demonstrating your emotional agility, tenacity, resilience, compassion and your ability to work calmly under pressure when working with those in complex situations, which can include managing situations of acute mental health or other medical crises, trafficking and exploitation, violence, abuse, substance misuse, homelessness or destitution. You will be supported to ensure that you can confidently manage your own health and safety and the health and safety of volunteers when working with people engaging with our services, in recognition of general elevated risks when delivering frontline services to a wide variety of people, particularly in situations where you may occasionally be required to work alone.

DotW’s outreach service has at its heart a mobile medical unit. You will have a full, clean driver’s licence and will be able to demonstrate your experience as a driver. You must be comfortable driving a large van (it is long and wide, though no additional licence is needed as the vehicle is less than 3.5tn). Experience driving minibuses or large goods vehicles is desirable.

We recognise that working in front-line roles in this sector brings people into contact with trauma regularly. Employees need great resilience which DotW makes every effort to support. You will be joining an experienced team, who will help you prioritise your work, develop your skills, and support you and your wellbeing. You will be supported through regular line management and clinical supervision.

We also recognise that members of our services team must feel equipped and confident to manage a wide variety of immediate and complex situations pertaining to an individual’s health and safety. All team members responsible for directly managing and supervising DotW’s services will be supported to ensure adequate skills in Basic Life Support and First Aid, Adult and Child Safeguarding, managing complex mental health situations understanding and making decisions in accordance with the Mental Health Capacity Act, supporting destitute families, developing their understanding of managing situations of homelessness, and using trauma-informed approaches.

You will demonstrate openness, responsiveness and positive attitude in the role and possess excellent inter-personal and communication skills. You will be a self-starter who thrives on the challenge of being in a dynamic organisation that works at home and abroad.

You will be driven to excel in your work and thrive in a fast-paced environment and supportive team that is committed to the highest levels of personal and team performance and the delivery of high quality, person-centred healthcare services.

Those with lived experience of migration, the asylum system, homelessness or exclusion from health services are encouraged to apply.
