Contract: fixed term post until the end of May 2026

Salary: £28,000 pa

**Ensuring no one faces
kidney disease alone**

About Kidney Care UK

Around 7 million people in the UK live with chronic kidney disease (CKD), and 1 million of them don't know that they do.

Over 68,000 are treated for end-stage kidney failure, relying on dialysis or a transplant to keep them alive.

Treatments are gruelling and relentless and impact patients' ability to work, maintain social interaction and live the lives they choose.

For over 45 years, Kidney Care UK has been at the forefront of supporting people with kidney disease. From our early days when we campaigned to introduce donor cards in the UK, we have worked hard to support and represent the interests of everyone affected by kidney disease.

30,000

are on dialysis in the UK right now

Providing practical, emotional, and financial support

About the Patient Support & Advocacy Service

The Patient Support & Advocacy Service provides practical, emotional, and financial support for anyone affected by chronic kidney disease.

Whatever the need presented, we empower people living with CKD and their families and carers to understand their options and make informed choices to positively navigate their experience of CKD.

We'll walk alongside them for as long as they need us to.

Safeguarding

Kidney Care UK is committed to safeguarding and promoting the welfare of children, young people and Adults at Risk and expect all staff and volunteers to actively support this commitment. An enhanced DBS check will be required for this role.

Role purpose

Job title: Patient Support & Advocacy Officer

Reporting to: Regional Project Manager

Location: Based at home, situated across the Liverpool & Wirral region with regular travel to assigned renal units.

Hours: Full time hours, 35 hour per week. Must be sufficiently flexible to work irregular hours as demanded by the requirements of the post.

Contract: fixed term post until the end of May 2026

Salary: £28,000 pa

An opportunity to provide practical, emotional, and financial support for anyone affected by chronic kidney disease. You will engage with kidney patients, their families, and carers as a source of information, support, and advocacy, in order to improve care and wellbeing outcomes for patients.

This may be in the hospital or other care setting, on the phone, online or face-to-face in a mutually acceptable public place.

The role will cover the main renal units and satellite dialysis units across your designated area in Liverpool and Wirral. Frequent travel and attendance is expected at some sites.

Responsibilities

- With support, establish the Kidney Care UK Patient Support & Advocacy Service in the region so patients, their families, carers and professionals to access independent support on social, financial, health advocacy and wellbeing
- Be responsible for the day-to-day delivery of the Patient Support & Advocacy Service across the region and the effective management of a caseload. This involves regular attendance at renal clinics in the region, building relationships with health and care professionals and being available for patients in the renal unit, on the phone or online, or to meet at a mutually convenient public location
- To support patients to build the skills and confidence needed to positively navigate the challenges presented by health, social care, benefits, and financial support pathways, and to overcome barriers and promote independence
- To support patients to connect with services to ensure that they are engaged in shared decision making and that their voice is central to shaping the care and support they receive
- To raise awareness of Kidney Care UK and the benefits of the Patient Support & Advocacy Service amongst kidney patients, their families, carers, and professionals across the region
- To be a primary source of, or gateway to, local information and access to:
 - Kidney Care UK Money & Energy Advice services, supporting income maximisation
 - Kidney Care UK Patient Grants programme, raising awareness of the programme and supporting applications
 - Kidney Care UK Counselling Service and other appropriate services to meet patients emotional and psychological needs
 - Reliable and accurate patient information relating to kidney disease, patient pathways, models of care, and patient choice
 - Benefits and finances, including employment, housing, and grants from charities including Kidney Care UK benefits and welfare service
- To provide insight on patients' concerns and unmet needs to inform Kidney Care UK research, campaigns, and new service development activity
- To maintain patient records to allow effective reporting on key performance indicators about patient activity and service outputs
- Identify and create relationships with key services and professionals across the region, to ensure patients, their families, and carers can easily access the Patient Support & Advocacy Service
- To work in a way that respects the personal, social, cultural, and spiritual needs of the individual and maintains the confidentiality of information they may have shared with you
