# Power Platform Developer

**age**UK

Too many older people have no one to turn to for support. We believe no older person should have to struggle alone. We're Age UK, the UK's leading charity for older people. We provide information, support, friendship and advice when it's needed most. Our services are a lifeline – could you help us reach even more people who need us?

## The job, in a nutshell

As adoption of the Power Platform accelerates, Age UK requires an established Power Platform Developer to ensure continuous delivery of our service offerings. You will work closely with both the Power Platform Team and project team for Age UK's newly released Volunteering Hub. You will be a bridge between stakeholders and development, translating requirements into development tasks and deployed solutions. You will be adept at leveraging new approaches to solutions for system design and functionality. We are looking for a candidate with proven experience in delivering high quality solutions with a strong sense of user experience. You will be creative and dedicated individual with exemplary communication skills that takes pride in the output of their work.

## What you'll do for us:

- Advise on both capabilities and limitations of the Power Platform service offering.
- Demonstrate a good understanding of Power Platform Architecture.
- Act as technical point of contact on Age UK's Volunteer Platform solution, clearly articulating technical concepts in layman's terms for business and

'Working in the Digital & Technology team at Age UK is enjoyable and rewarding. You get to work on a variety of projects as part of a collaborative, friendly team whilst making a difference to the lives of those who need us most.'

DIGITAL PROJECT MANAGER

## Our values

**WE ARE BOLD**
In doing what's right for older people - We are unafraid in standing up for older people and in seeking support for our work with them.

**WE ACT TOGETHER**
With and for older people - We act as one team, collaborating to get things done.

**WE ARE FOCUSSED**
On what makes most impact for older people - We never forget that older people are at the heart of everything we do.

# Power Platform Developer

other nontechnical project stakeholders.

- Ensure a high quality of documentation for deployed solutions adhering to our current processes, including architecture diagrams and process flowcharts.
- Work with various technical and non-technical project stakeholders to ensure successful and timely delivery of Power Platform solutions.
- Lead demonstrations of upcoming features throughout development sprints to keep stakeholders and quality assurance in the loop.
- Evaluate requirements to provide implementation plans and time estimations.
- Lead the development of technical solutions, working closely with the team to ensure sprint goals are on track, providing feedback and ensuring development standards are followed.
- Adhere to best practice, naming schemes and organisational themes where applicable throughout your work in our Power Platform, proactively identifying areas for improvement.
- Address and remediate security vulnerability findings throughout the platform.
- Continuously seek further knowledge on current and future changes in the Power Platform.
- Represent self, team, and AGE UK at external engagements.
- Adhere to and promote the Age UK values and Standards of Conduct.

## Must haves:

- Proven experience delivering a range of solutions across all areas of Microsoft's Power Platform, especially Power Apps, Power Automate and Power Pages, working with both stakeholders and development teams.
- Proficiency working with plugins, classic Dataverse workflows, business process flows & cloud flows.
- Good understanding of C#, Javascript, YAML, Batch Script, CSS & HTML.
- Strong understanding of Azure offerings and integration with the Power Platform, including B2C Tenants, B2B Collaboration, API Management Service, Storage Accounts, Function Apps, App Registrations.
