Introduction to multiple sclerosis and the MS Society

Over 130,000 of us in the UK have multiple sclerosis (MS). It's unpredictable and different for everyone. It's often painful and exhausting, and can cause problems with how we walk, move, see, think and feel. It can make it hard for us to work, and do the things we enjoy. But it doesn't have to be this way.

We're the MS Society – a community of people living with MS, scientists, campaigners, volunteers and fundraisers. We understand what life's like with MS, and we support each other through the highs, lows and everything in between. And we're driving research into more – and better – treatments for everyone. Together, we are strong enough to stop MS.
