Working towards a world free from MND

About MND and the work of the Association

Motor neurone disease (MND) is a fatal, rapidly progressing neurological condition affecting more than 5,000 adults in the UK at any one time. The disease causes messages from nerves (motor neurones) in the brain and spinal cord that control movement to gradually stop reaching the muscles, leading them to weaken, stiffen and waste.

The result is that people become locked in a failing body, unable to move, talk and eventually breathe. Some may experience changes in thinking and behaviour, with a proportion experiencing a rare form of dementia. MND does not usually affect senses such as sight, hearing and touch.

MND kills a third of people within a year and more than half within two years of diagnosis. It affects people from all backgrounds and a person's lifetime risk of developing MND around 1 in 300. Today six people will be diagnosed and six will die from MND. There is no cure.

The MND Association focuses on funding research, improving access to care and campaigning for people living with or affected by MND in England, Wales and Northern Ireland. We have over 11,000 members forming a powerful network that provides information and support for people with MND, their families and carers. We fund and promote research that leads to new understanding and treatments, and brings us closer to a cure. We campaign and raise awareness so the needs of people with MND are recognised and addressed by wider society.

People with MND, their families and carers are at the heart of everything we do

Our vision and values

Our vision

A world free from MND.

Our values

- People with MND, their families and carers are at the **heart** of everything we do.
- We **collaborate**, and value everyone's contribution.
- We achieve excellence through personal **commitment** and ongoing improvement.
- We **respect** and respond to people's diverse needs, backgrounds and views.
- We achieve our aims through building **open** and transparent relationships.

Our Promises

To harness the hope within our community to speed up progress towards a world free from MND, the MND Association has committed to five Promises. Our Promises give us focus to work faster and fight harder to strive for better – together with our community. Simply put, they drive everything we do.

Promise 1 We will not rest until: MND is treatable and ultimately curable

We are seeking new collaborative drug discovery and development projects, helping to fund and facilitate the research that is taking us ever closer to uncovering the causes of MND, effective treatments and ultimately a cure.

Promise 2 We will not rest until: Everyone gets the care they need when they need it

Co-ordinated multi-disciplinary care is the very best way to ensure a person with MND has access to all the healthcare professionals they need, at the right time. Our 22 care networks across the country provide this. But not everyone with MND has access to the same level of support. That must change.

Promise 3 We will not rest until: Every day with MND counts

For people with MND, technology can help life be the best it can be. We are working with tech giants from around the world to find solutions to real-life problems.

Promise 4 We will not rest until: You are heard

If we shout louder and to the right people, things will change. If we all join together we can't be ignored.

Promise 5 We will not rest until: No one faces MND alone

We will work to break down barriers that prevent people with and affected by MND from accessing the help and support they need.

About the role

Title: Project Manager

Team: Service Improvement & Transformation

Directorate: Services and Partnerships

Salary: circa. £43,000 per annum plus benefits

Hours: 37 hours per week

Contract Type: Permanent

Location: Home-based with occasional travel requirements to Northampton and London for team meetings

Do you have significant project management experience? Can you effectively collaborate and engage with a range of stakeholders? We are recruiting TWO Service Improvement and Transformation Project Managers to join the team!

Your role will be pivotal in supporting the development and implementing our Services & Partnerships Improvement and Transformation programmes. Reporting to the Head of Service Improvement and Transformation, you'll be the driving force behind delivering projects on time and within budget.

Your responsibilities will include developing, managing, and delivering detailed project plans, managing resources, and ensuring successful project delivery. You'll collaborate closely with internal stakeholders throughout the Association, leading communication and engagement activities. Plus, you'll foster innovation, proactively developing solutions and best practices throughout the project lifecycle.

We believe in partnership and co-production. You'll work alongside Association staff, volunteers, and people living with and affected by MND to co-produce solutions and to ensure engagement and understanding at every step.

As the main point of contact for project progress, you'll oversee reporting, risk management, and budgeting, ensuring smooth operations from start to finish. You'll also manage contracts with third parties, assigning of tasks, co-ordinating timescales and managing deliverables.

If you're passionate about making a tangible impact and driving positive change, we want to hear from you. Join us in shaping the future of service improvement and transformation!

Job purpose

- Support the Programme Lead and Head of Service Improvement and Transformation in developing and implementing the Associations' Services & Partnership Improvement and Transformation programmes.
- Support the delivery of allocated projects from within the Service Improvement & Transformation team across the Association, on time and within set budget.
- Develop, manage and deliver detailed project plans and the tasks within them, utilising resources where appropriate.

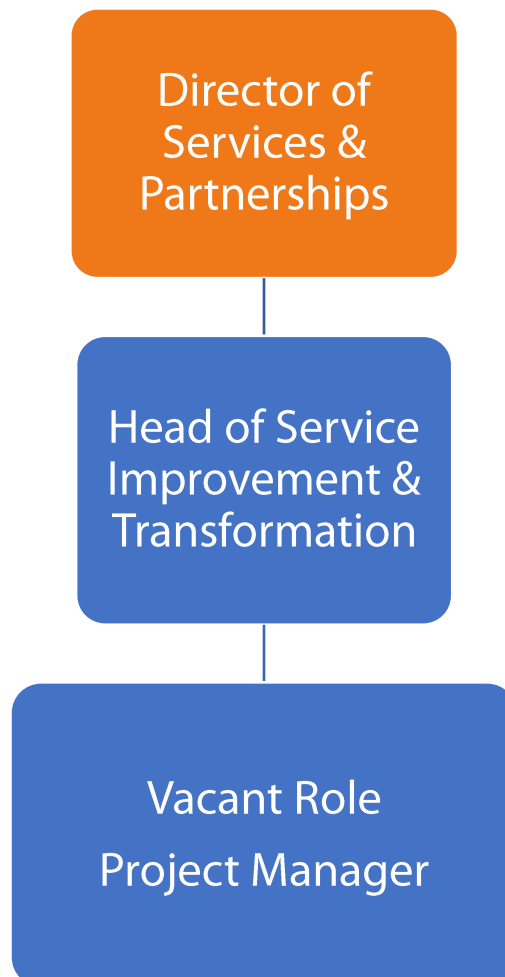

Main responsibilities

- Responsible for the successful delivery of allocated projects.
- Determine and define the project scope and its objectives in collaboration with the project sponsor, defining the resources needed to achieve them and the impact measures required to monitor their achievement.
- Manage the innovation of ideas and solutions as part of the options considered during a project's planning phase and beyond, be proactive in developing improvements and solutions, utilising best practices, techniques, and standards during the project's lifecycle.
- Be the point of contact for identified stakeholders, leading communication and engagement activities and plans, seeking support and buy-in where necessary and providing project updates on a regular basis.
- Work in partnership with other Association staff and potentially volunteers or people living with MND to co-produce solutions where appropriate and to ensure engagement and understanding of the project.
- Oversee project progress reporting and risk & issue log management, reviewing and escalating as appropriate. Manage project spend and prepare project budget on scope of work and resource requirements.
- Manage contracts with third parties and suppliers including any tender processes, assigning of tasks, coordinating timescales, and managing deliverables.
- Undertake any other task relevant to the job purpose and ensure that all functions performed reflect the Associations mission and core values.

Essential criteria

- Project management experience, including seeing projects through the full life cycle.
- Experience of Quality Improvement methodology.
- Excellent organisational, interpersonal, and analytical skills.
- Ability to understand and manage complex issues, dealing efficiently with changing priorities and making connection from multiple sources of information.
- Experience of leveraging data and analytics to make smarter decision, track progress and improve performance.
- Excellent communicator with the proven ability to communicate with people at all levels verbally and in writing, using creative visual tools where appropriate to internal and external stakeholders.
- Strong familiarity with project management software tools, methodologies, and best practices.
- Proven ability to solve problems creatively and ability to use various formats/methods to communicate complex issues to others, creating or overseeing development of content to facilitate this.
- Experience of monitoring KPI's and reporting mechanisms and processes and of providing accurate up to date evidence-based information to stakeholders.
- Operational or project experience in the delivery or transformation of services and support in health or third sector organisations.

Team structure

How to apply

Please submit a CV and supporting statement via our [website](#). This ensures your application is processed correctly and we have all the required information.

Your supporting statement should be no longer than one side of A4 and demonstrate how you meet the following areas of the role:

- Project management experience, including seeing projects through the full life cycle.
- Experience of Quality Improvement methodology.
- Excellent communicator with the proven ability to communicate with people at all levels.

Where experience is asked for, please give one example showing what you did and what it achieved. Where we require evidence of ability, please explain either how you would approach that particular competence or give an example to support your suitability.

Please note, adverts may be closed before the deadline if sufficient applications are received. To avoid disappointment please apply early.

All applications will receive a response once shortlisting has been completed.

Inclusive recruitment

We are committed to providing people with disabilities an opportunity to compete fairly for jobs.

- We guarantee interviews for disabled applicants that meet the requirements of the role as part of our commitment to the Disability Confident Scheme.
- We can provide reasonable adjustments throughout the recruitment process.
- We communicate with applicants in a way that works best for them to ensure a positive and supportive candidate experience.

Alternative application process

To support an inclusive application process, we are open to receiving alternative applications from candidates who may find it difficult to complete our online form. If you would like to apply via video or audio file, please send your recorded application - ensuring you cover the supporting statement aspect - to HRRecruitment@mndassociation.org

Privacy Policy:

The information provided to the MND Association when applying for a vacancy will be treated in full accordance with the General Data Protection Regulation (GDPR).

The MND Association is committed to protecting your personal information and being transparent about what information we hold, whether you are a donor, volunteer, shopper, campaigner or a person living with or affected by MND.

For more information, visit [Privacy Policy | MND Association](#)

Right to work:

If you are successful in securing a role at the MND, you will be asked to produce your valid right to work documentation as part of our pre-employment checks. To find out more please visit our [website](#).

DBS checks:

Depending on the nature of your role you may be required to complete a criminal records check with the Disclosure and Barring Service (DBS).

Animal testing statement:

Research using animals has led to a greater understanding of MND. Because of the complexity of MND, at the moment animal models are still one of the most powerful tools used to help us understand, prevent and one day cure MND. Many of the achievements that stem from research funded by the MND Association, and by other organisations worldwide, would not have been possible without animal research. Even so, a great deal of our research is carried out without involving animals.

Any decision to use animals in research is never taken lightly. We understand that not everyone agrees with animal research. For more information, visit [Animal research | MND Association](#)

Looking out for our people

The wellbeing of our staff is very important to us, and that's why we've developed a wellbeing offer and programme of activities. These include:

- Mindfulness sessions
- Wellbeing sessions
- Menopause support group
- Parent and carer support group for children who are neurodivergent
- Less visible disabilities and conditions forum
- Mental Health First Aiders who provide support and signpost you to further information.

Learning and development opportunities

We understand the importance and benefits of continual learning. To facilitate your professional and personal growth, we provide a:

- comprehensive induction programme
- range of courses available on our Learning Management System - *Learning Lab*
- job shadowing policy, enabling you to strengthen your knowledge in other areas
- chance to study for an apprenticeship alongside your role.

Our commitment to inclusion

Motor neurone disease doesn't discriminate, and neither do we.

We are determined to become fully inclusive by continuing to embrace diversity, remaining committed to equity and ensuring that our products and services are fully accessible. In this way, we can ensure that **all** people living with and affected by MND get the best possible care and support they deserve.

We offer a variety of network groups and forums that are open to everyone, including our staff, volunteers, people living with and affected by MND, as well as Association members. These groups provide peer-to-peer support, raise awareness, and hold the Association accountable.

We are a Stonewall Diversity Champion, have recently been awarded Disability Confident-Employer status, and are members of the Communications Access Scheme.

Take a look at the [inclusion pages](#) on our website to learn more about our inclusion strategy, see how far we've come and where we are headed.

Where we work

Our central office is situated at Francis Crick House in Northampton, Moulton Park. It's a bright and modern space with a variety of flexible working spaces, meeting rooms, and communal areas.

We also have an office space in London, which is used predominately by our External Affairs Team. Some of our staff are based regionally and work from home.

Staff benefits

The MND Association relies on the dedication and talent of its employees to fulfil its mission and advance towards a cure. That's why it is essential we provide a range of benefits designed to meet both organisational and individual needs, ensuring they are competitive in the market and serve as tools for attracting and retaining great talent.

Enhanced annual leave You are entitled to 28 days of annual leave, which increases by one day for each full calendar year worked, up to a maximum of 33 days after five years of service, in addition to the recognised bank holidays.

UK Healthcare We provide level 1 cover, which reimburses healthcare costs including dentist, optician, health screening, specialist consultation and much more. Discover more [here](#).

24/7 GP service You and your household have 24/7 access to GP appointments, prescriptions and advice, all at no extra cost. Discover more about GP24 [here](#).

Life assurance Additional financial protection for your loved ones, ensuring peace of mind and a secure future.

Cycle to work scheme Save money and spread the cost of a new bike whilst reducing your carbon footprint.

Confidential counselling helplines Support for your health and wellbeing, including challenges related to family, work, finances and health.

BenefitHub Save money on your everyday shopping with access to 100s of high street discounted vouchers and offers, including cash back plans.

Enhanced pension scheme If you contribute a minimum of 5% the Association will contribute 8.1% of your monthly salary.

What our staff say

"Working at the MND Association gives me the chance to help people with MND, and I know that the job I am doing goes some way to assisting people living with this terrible disease. Every day is different, and I enjoy the challenge the work presents."

Matthew Hollis, Area Support Co-ordinator

"Taking that first call from someone who has just been diagnosed with MND fills me with the enormous need to let them know that we are here for them. We are one big happy family and together we will fight this dreadful disease. Those affected with MND are not alone, because we are here for them."

Teresa Deacon, Receptionist

Our history

On 6 October 1979, three independent regional groups set up by people affected by MND came together for the first time as the MND Association. Professor Stephen Hawking accepted an invitation to be the Patients' Patron and remained a figurehead of the Association until his death in 2018.

Within a year, we had funded our first full time research fellow, based at Charing Cross Hospital's neurological department, and just two years later, in 1982, 40 specialists attended the Association's inaugural research conference.

Today, the Association funds the coordination of life-changing care for people living with MND and wide-ranging support for families and carers. We invest millions of pounds every year in the global research effort to discover the causes, potential new treatments and ultimately a cure for MND.

Visit our [website](#) to learn more about motor neurone disease and the important work we're doing at the Association.
