MORE ABOUT US

What we do

Safer London is a leading charity working with young Londoners and their families affected by violence and exploitation. Understanding young Londoners' lives are shaped by the world in which they live, we work not only with them and their families, but also their peer networks and directly within the community and the places where they live and spend their time.

With a footprint in every borough in London, we build trusting, professional partnerships to embed our approaches and work towards achieving our vision of a city that is safer for all young Londoners who live here.

We deliver our work through three key themes

PEOPLE

We provide trusted individual relational support to ensure more young Londoners will feel safer, be safer, and have positive futures.

PEERS

We enable young Londoners to support and be supported by their peers.

PLACES

We work directly in the community to ensure that the places and spaces where young Londoners spend their time are safe and positive.

We believe **people**, **peers** and **places** all have their own abilities and assets. We'll work alongside them to identify their strengths and enable them to find the solutions which work best for them.

How we work

Through specialist one-to-one intervention, we are supporting young Londoners and parents/carers to move onto the positive futures they deserve. We put them at the centre of their support, focusing on them and their needs. By building strong, trusting relationships we gain an insight into their world, begin to understand what they need and together we find the best ways to keep them safe.

We understand the impact the wider context has on young Londoners. The area where they live; where they spend their time; their peer networks - can all impact on their safety. Whether this is positive or negative. When working alongside a young Londoner we take into consideration these contextual factors right from the point of referral. By delivering our work through the lens of Contextual Safeguarding, we are acknowledging that young Londoners face risks not only within their families but also in broader social contexts. This approach ensures a more comprehensive and effective way to protect them from harm and promote their wellbeing.

Our support is delivered by skilled Caseworkers for anywhere between six months and two years. Safer London Caseworkers work collaboratively with young Londoners and families, with sessions primarily delivered face to face in the community, with phone and online sessions also offered.

Our work is underpinned by six guiding principles:

Person Centred

Safer London puts young Londoners at the centre of their support. We listen to and work with them, focusing on them and their needs.

Co-production

Young Londoners have a say in their journey of support. This empowerment not only boosts their confidence but also facilitates meaningful engagement.

Contextual Safeguarding

We understand the impact the wider context has on young Londoners lives and safety. Whether this is in physical spaces, within their peer groups or online. We're committed to weaving Contextual Safeguarding approaches throughout our work with young Londoners.

Trauma Responsive

Young Londoners tell us how they've experienced traumatic events. This can have a devastating impact on their daily lives. Our knowledge and understanding of trauma and how it effects young Londoners, are the building blocks of our support.

Trusting relationships

Strong trusting relationships form the foundation of all our work with young Londoners and families. We understand that establishing trust is pivotal for young Londoners to achieve a positive outcome for themselves. By building strong trusting relationships we gain insight into their world, understand what they need and learn how to keep them safe.

Non-judgemental

Whatever their history, when a child or young person comes to Safer London, they are just that - a child or a young person. Our approach is not punitive, our work is grounded and delivered through the lens of safeguarding - we never judge the young Londoners and families we work with. Our goal is to work alongside them, so they can unlock their potential.
