

Partnership Opportunity with TreeAction UK CIC

We invite you to join a high-impact local partnership for businesses that want to demonstrate measurable community and environmental leadership.

Sponsor TreeAction's tree planting and conservation maintenance programme and align your business with visible local action that supports ESG, brand reputation and employee engagement.

Who we are

TreeAction is a not-for-profit organisation planting and caring for trees local schools, colleges and community greenspaces in Sussex.

Every two weeks, our team of conservation volunteers carry out planting and maintenance sessions that help young trees survive and thrive. These sessions improve local biodiversity, support air quality, strengthen green spaces and create opportunities for the community engagement and wellbeing.

Why sponsor TreeAction

Sponsorship gives your business a practical way to demonstrate purpose-led action in your local area. It is an opportunity to support tangible climate and biodiversity outcomes while strengthening your brand with customers, employees and the wider community.

Business benefits include:

- ESG and sustainability alignment through direct support for biodiversity, green infrastructure and community wellbeing.
- Strong local brand positioning through visible association with trusted grassroots environmental action.
- Positive community impact that is easy to explain in marketing, recruitment and corporate responsibility communications.
- Employee engagement through volunteering opportunities and a shared team cause.
- Local publicity through social media, newsletters, event banners and community-facing recognition.
- Credible, place-based impact that helps show your business is investing in the communities where you operate.
