

Culture handbook

ASTER
GROUP

As Group CEO, I have always said that one of the most important parts of my job is to create an environment where you can thrive.

This is truer today than ever before. Making sure Aster is a great place to work is the bedrock to making sure we're able to deliver the best possible services to those customers we support, both now and in the future.

And while we've got a lot to be proud of when it comes to the culture we've built across the Aster Group, I know there's more to be done.

This handbook is a snapshot of who we are – our story, our strategy, and how we work together through **The Aster Way**. It also sets out **The Aster Offer**. It's really just about being clear with each other – what you can expect from Aster, and what we ask in return – because we all play an important role in bringing **The Aster Way** to life, for our colleagues and our customers.

The Aster Story

Our pride and purpose

We exist to have a positive impact in our local communities

- We provide safe, well-maintained homes
- We build new homes to help tackle the national housing shortage
- We provide charitable services from supporting social entrepreneurs kick-start their businesses, to supporting people living with disabilities in work
- We're relentless in our mission to extend the positive impact we make.

Our current reality

The world around us is in crisis – the soaring cost-of-living and continued housing shortage means we can't keep doing what we've always done

- We're under more pressure than ever to increase our support for the people who need us the most
- Customer expectations are changing, and we need to provide the services they need and deserve, not just now, but into the future
- The future of work and employee expectations are changing at a rate never seen before
- Competition to keep and attract high performing people who can help us achieve our vision is fiercer than it's ever been.

Our opportunity

We have the skills, dedication, and ambition to transform Aster

- Now is the time to modernise our services – rethinking how we can better serve our customers' needs
- Technology will accelerate improvements to our services and set us apart from others in the way we work
- An even more inclusive culture will create a better way of working for everyone
- The deal we make with our people will be built on expectations, trust, and reward for those who contribute to our vision.

The journey we must take

We need to make Aster a future ready business

- We'll work with our customers to set an Aster standard we can be proud of
- We'll do more to build and manage our homes for a sustainable future
- We'll continue growing our business by teaming up with other charities and housing associations to maximise the good work we do
- From our Board to our frontline, The Aster Way will come to life through the people we recruit, retain and reward.

The difference we can make

The Aster Way isn't just a set of words – to survive in the future we must all commit to it

- No one is more important than anyone else - we each play a different but equally important role in our collective success
- We must set clear expectations for our people, rewarding those who contribute to our success
- By creating an even more inclusive environment we'll have the courage to do things differently
- We'll make brave decisions that are in the best interests of our customers and colleagues.

Our desired destination

We'll deliver lasting benefits for our customers, communities, and colleagues

- Our customers will receive a good service, delivered excellently, with a strong local focus
- We'll target the investment in building new homes and maintaining our existing homes in the right places, informed by data
