Our history

1980

A group of business people and the London Borough of Hounslow's Education Department together created the 'Industry Education Working Group' (IEWG).

1989

The IEWG became the Hounslow Education Business Partnership (HEBP). HEBP, and the IEWG before it, forged close links with contacts in schools across Hounslow; ensuring that as many students as possible were engaged with a diverse range of career services.

The staff of HEBP would later be based at the London Borough of Hounslow, with direct input from schools, companies, the Careers Service and other West London training organisations.

2010

We obtained charitable status and began trading as 'Hounslow Education Business Charity'.

2011

The Department for Education abolished funding for Education Business Partnerships. The staff and assets of Hounslow Education Business Partnership (HEBP) were formally transferred to the Hounslow Education Business Charity.

2012

We rebranded as Spark!, established to operate in Hounslow, across west London, and beyond.

2021

A new strategic approach, alongside a new vision, mission and values were established and published, with a priority focus on building place-based partnerships across the 7 west London boroughs (Barnet, Brent, Ealing, Hammersmith and Fulham, Harrow, Hillingdon and Hounslow), alongside the objective of developing high impact services directed towards young people who had been identified as being at risk of becoming 'Not in Employment Education and Training'.

A photograph showing two women in a professional setting. One woman, with dark hair and wearing a red top with white polka dots, is smiling broadly while looking at a tablet device. The other woman, seen from the back and side, has her hair in a bun and is wearing a dark blue blazer. They are seated at a table with a white mug and a small round table nearby. A window with a view of trees is in the background.

"I had struggled with finding my voice when it came to my career, as I lacked confidence. It was through the mentoring sessions that I gained the knowledge that I needed, and this boosted my confidence massively"

Our 4-year strategic priorities

INCREASE REACH

We will actively seek to increase the numbers of communities, young people, and businesses with which we work, and to build a 'place-based approach' in identified regions of need which are currently under-served.

IMPACT

In all that we do we aim to have as high an impact as possible on beneficiaries. We will continuously and rigorously assess and measure the value of our work and our delivery, with the objective of constant improvement in service of our targeted young people and partners.

INNOVATE AND LEARN

As a learning organisation we will continue to test and iterate new and impactful approaches, sharing learning, and further developing models that are the most viable. We will maximise our long-standing and embedded relationships in the London Borough of Hounslow, acting as a beacon of innovation and excellence; from where we can learn, replicate, and scale initiatives and programmes, wherever need is identified.

IMPROVE

We understand that however well we are performing as a team and an organisation, we can always make incremental improvements to systems, processes, and our delivery. We are therefore committed to quality assurance and to continuously striving to be the best at what we do, ensuring effective and efficient systems to allow us to function to an exemplary standard.

INFLUENCE

As part of a community of providers we appreciate that Spark! can offer significant value to young people by understanding what works, sharing our learnings, and supporting others to excel, in order that we might influence systemic changes to achieve our wider vision.
