Tutor Communications Officer

About us

At Action Tutoring, we believe every child should be given the **opportunity to succeed** in school.

But in the UK today, young people from disadvantaged backgrounds are less likely to achieve the grades they need to progress in life. This isn't because they are any less able; they have less access to the tools to help them **reach their potential**.

We don't think this is fair. We know tutoring is an effective way of improving academic attainment and so we harness the **power of volunteer tutors** to bridge the gap and ensure this help can be accessed by every pupil who needs it, **not just those who can afford it**.

We specifically help pupils facing socio-economic disadvantage and who are at risk of leaving primary or secondary school without reaching national standards in their exams. We work **in partnership with schools** right across England, delivering weekly tutoring in English or maths to those pupils who need it most.

Our mission

Action Tutoring supports young people facing **socio-economic disadvantage** to achieve a meaningful level of academic attainment, with a view to enabling them to progress in education, employment or training.

We do this by partnering high-quality volunteer tutors with pupils to increase their **subject knowledge, confidence** and **study skills**.

Our **vision** is a world in which no child's life chances are limited by their socio-economic background.

Our values

Our team are passionate, dedicated, professional and supportive.

We are a values-driven organisation and the **six core values** illustrated here underpin what we do and how we seek to do it.

1,743

In the summer of 2023, the first year group since 2019 sat normal exams without special grading arrangements to account for lost learning during the pandemic. Even before the pandemic, disadvantaged pupils were **already 18 months behind** their non-disadvantaged peers on average by the end of secondary school. The effects of the pandemic on education are still being felt and this gap is now the largest it has been in twelve years. In 2023, just 44% of disadvantaged pupils met expected standards, compared to 66% of non-disadvantaged pupils in the primary phase of education.

Our analysis shows that primary pupils who were supported by Action Tutoring in 2022-23 for at least 10 sessions were more likely to achieve the expected standards than other disadvantaged pupils across the country — by 7 percentage points in reading and 14 percentage points in maths. In secondary schools, after attending at least 10 tutoring sessions, our pupils were nearly 13 percentage points more likely to pass maths GCSE than other disadvantaged pupils nationally.
