WELCOME TO ARUK

If nothing changes, one in two of us will be directly affected by dementia – either by caring for someone with the condition, developing it ourselves, or both. Alzheimer's Research UK exists to change that.

As the UK's leading dementia research charity, we're working to revolutionise the way we treat, diagnose, and prevent dementia. But we won't stop there. We will keep going until we find a cure.

Working for Alzheimer's Research UK, you can be part of a team that is:

- Funding world-leading research into dementia across the UK and beyond. Our Research Network brings together nearly 3,000 dementia researchers, to share ideas, collaborate and accelerate our search for a cure.
- Providing information about dementia to people affected and their families.
- Helping to improve understanding about dementia and the potential for research to cure the diseases that cause it.
- Campaigning to keep dementia research on the political agenda and working to ensure government funding for research is a priority.
- Building a social movement behind our cause, inspiring thousands of people to stand with us to find a cure.
- Providing operational support to enable the charitable objectives to be met.

Alzheimer's Research UK is a fantastic place to work. Our pioneering spirit is reflected in the energy and drive of our employees. As CEO, I am extremely privileged to lead exceptionally talented and passionate teams who have the ambitions and determination to create a world free from dementia. We exist for a cure and, together, we will change lives.
