Groups & Activities Volunteer – Worcestershire Young Carers Service

Location: Worcestershire

Who are we?
YSS works directly with people through regular one-to-one sessions, co-created support plans, advocacy, peer support and trauma-informed programmes. We work with children and young people, families, young carers, veterans and people involved in the criminal justice system across Worcestershire, Herefordshire, Shropshire, Telford & Wrekin and Warwickshire.

From one-to-one support and advocacy to help with navigating services and important life changes, everything we do is shaped around the needs of the people we work with. Our team takes the time to listen, understand what matters to you and help you find a way forward.
