WHO WE ARE

Established in 1977 by a Christian family and supporters, Yeldall Manor is a drug and alcohol treatment centre for men struggling with addiction. We welcome and value applications from all walks of life, background, ethnicity, culture and faith.

We aim to help our residents overcome serious drug and alcohol addictions and return to society to experience a safe, secure and fulfilling life in recovery.

Addiction affects all areas of life, therefore recovery is about addressing issues in your physical, emotional, mental and spiritual health, as well as practical life problems and damaged relationships.

The length of our programme enables our residents to deal with this transition from chaos and pain to stability and recovery.

"Yeldall wrapped me in a blanket of love and helped me find the courage I needed to look at myself in the mirror and face all the fears I'd lived with for over 20 years."
